About the Role

This role has a flexible work environment, offering a dynamic blend of in-office and on-field collaborations.

Expected travel: 60% of the time (approximately)

As a Public growers Manager at Kingy Africa Ginger plantation, you will be at the forefront of our mission.

Requirements

Educational Background

- **Degree:** A bachelor's degree in agriculture, agribusiness, agricultural economics, or a related field. A master's degree or higher qualification can be advantageous.

Experience

- **Industry Experience:** Several 4-7 years of experience in agricultural management, agronomy, or a related field. Experience working with public growers or smallholder farmers is highly desirable.
- **Management Experience:** Proven experience in managing teams, projects, or programs, particularly in agricultural settings.

Skills

- **Technical Knowledge:** Understanding of agricultural practices, crop management, soil health, and pest control. Familiarity with agricultural technology and farm management systems.
- **Project Management:** Ability to plan, execute, and oversee projects effectively.
- **Communication:** Strong interpersonal and communication skills for working with farmers, suppliers, and other stakeholders.
- **Problem-Solving:** Ability to identify issues, develop solutions, and implement strategies to overcome challenges.
- **Financial Acumen:** Knowledge of budgeting, financial planning, and cost management related to agriculture and farming operations.

Personal Attributes

- **Leadership:** Capability to lead, motivate, and manage a team effectively.
- **Adaptability:** Flexibility to handle changing conditions and work in diverse environments.
- **Cultural Sensitivity:** Understanding and respecting the cultural practices and values of the communities you work with.

Technical Skills

- **Data Management:** Proficiency in using software for data collection, analysis, and reporting.
- **Technology Proficiency:** Familiarity with agricultural technologies and tools, including farm management systems and data analytics.

Other Requirements

- **Travel:** Willingness to travel frequently to visit Public growers and farm sites.
- **Regulatory Knowledge:** Awareness of relevant regulations, standards, and best practices in agriculture and trade. **Only shortlisted applicants will be contacted**
